American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

No. 1. JULY 1989

Vasopressin reduces oxygen uptake in intact dogs but not in sinoaortic-denervated dogs
J.-F. Liard R1

Effects of anoxia on catecholamine levels in brain and kidney of the crucian carp
G. E. Nilsson R10

Interaction of CCK-8 and somatostatin-14 in control of food intake in dogs
T. J. Kalogeris, R. D. Reidelberger, V. E. Mendel, and T. E. Solomon R15

Effects of ouabain on neuronal thermosensitivity in hypothalamic tissue slices
M. C. Curras and J. A. Boulant R21

Hemodynamic effects of activation of renal and mesenteric sensory nerves in rats
B. J. A. Janssen, H. van Essen, H. A. J. Struyker Boudier, and J. F. M. Smits R29

Maternofetal potential difference in pigs
R. D. H. Boyd, J. D. Glazier, C. P. Sibley, and B. S. Ward R37

Effect of renal decapsulation on renal interstitial hydrostatic pressure and natriuresis
A. A. Khraibi and F. G. Knox R44

Acute-phase behavior of factor VIII procoagulant and other acute-phase reactants in rabbits
D. A. Noe, P. A. Murphy, W. R. Bell, and J. N. Siegel R49

In vitro localization of thermosensitive neurons in the rat diencephalon
J. B. Dean and J. A. Boulant R57

Effects of synaptic blockade on thermosensitive neurons in rat diencephalon in vitro
J. B. Dean and J. A. Boulant R65

Calcitropic actions of prolactin in freshwater North American eel (*Anguilla rostrata* LeSueur)
G. Flik, J. C. Fenwick, and S. E. Wendelaar Bonga R74

Axon destruction and adrenergic systems mediate pressor responses after AV3V lesions
S. L. Bealer and J. W. Van Huysse R80

Aldosterone binding sites along nephron of *Xenopus* and rabbit
A. Gnionsahe, M. Claire, N. Koechlin, J. P. Bonvalet, and N. Farman R87

Cold exposure reverses inhibitory effects of fasting on peripheral glucose uptake in rats
H. Shibata, F. Pérusse, A. Vallerand, and L. J. Bukowiecki R96

Renal responses to exercise-induced lactic acidosis
R. S. McKelvie, M. I. Lindinger, G. J. F. Heigenhauser, J. R. Sutton, and N. L. Jones R102

Total translation of vasopressin and oxytocin in neurohypophysis of rats
A. G. Robinson, M. M. Roberts, W. A. Evron, L. E. Janocko, and G. E. Hoffman R109

Potentiated cortisol response to paired hemorrhage: role of angiotensin and vasopressin
M. P. Lilly, E. J. DeMaria, T. O. Bruhn, and D. S. Gann R118

Effect of ANP on circulating blood volume
E. Sugimoto, K. Shigemi, T. Okuno, T. Yawata, and T. Morimoto R127

Effects of hypoxia and hypocapnia on brain redox balance in ducks
P. E. Bickler, S. Ok Koh, and J. W. Severinghaus R132

Bright light can delay human temperature rhythm independent of sleep
M. Drennan, D. F. Kripke, and J. C. Gillin R136

Control of torpor and body weight patterns by a seasonal timer in Siberian hamsters
T. J. Bartness, J. A. Elliott, and B. D. Goldman R142

Fever response in laboratory-maintained and free-ranging chuckwallas (*Sauromalus obesus*)
A. E. Muchlinski, R. J. Stoutenburgh, and J. M. Hogan R150

Effect of upper airway CO_2 pattern on ventilatory frequency in tegu lizards
G. O. Ballam and E. L. Coates R156

Atrial natriuretic peptide response to rapid atrial pacing in cardiac-denervated dogs
T. D. M. Williams, K. P. Walsh, R. Canepa-Anson, M. I. M. Noble, A. J. Drake-Holland, R. Sutton, and S. L. Lightman R162

Lack of vasopressin increases hypothalamic atrial natriuretic peptide binding sites
E. Castrén and J. M. Saavedra R168

Effect of nicardipine and atriopeptin on transcapillary shift of fluid and proteins
J.-P. Valentin, J. Ribstein, and A. Mimran R174

Na-dependent L-glutamate transport by eel intestinal BBMV: role of K^+ and Cl^-
P. M. Romano, G. A. Ahearn, and C. Storelli R180

Acute-phase response to endogenous pyrogen in rabbit: effects of age and route of administration
L. W. Martin, L. B. Deeter, and J. M. Lipton R189

Mechanism of inhibition of renin response to hypotension by atrial natriuretic factor
D. A. Scheuer, T. N. Thrasher, L. C. Keil, and D. J. Ramsay R194

Role of the renin-angiotensin system in hypertension during reduced uteroplacental perfusion pressure
L. L. Woods and V. L. Brooks R204

Suprachiasmatic nuclei influence torpor and circadian temperature rhythms in hamsters
N. F. Ruby, N. Ibuka, B. M. Barnes, and I. Zucker R210

Baroreflex inhibition during coronary occlusion is mediated by prostaglandins
I. H. Zucker, M. J. Panzenbeck, J. F. Hackley, and K. Haiderzad R216

Site of action of putative lipostatic factor: hypothalamic metabolism of parabiotic rats
T. R. Kasser, R. B. S. Harris, and R. J. Martin R224

Renal sympathetic nerve activity and norepinephrine release in rats
A. Deka-Starosta, M. Garty, Z. Zukowska-Grojec, H. R. Keiser, I. J. Kopin, and D. S. Goldstein R229

MODELING METHODOLOGY FORUM

Allopurinol kinetics in humans as a means to assess liver function: design of a loading test
G. Van Waeg and T. Groth R237

RAPID COMMUNICATIONS

Injection of muscimol into posterior hypothalamus blocks stress-induced tachycardia
M. Lisa, E. Marmo, J. H. Wible, Jr., and J. A. DiMicco R246

No. 2. AUGUST 1989

Surgical removal of brown fat results in rapid and complete compensation by other depots
N. J. Rothwell and M. J. Stock R253

Effects of propranolol and pindolol on plasma ANP levels in humans at rest and during exercise
P. Bouissou, F.-X. Galen, J. P. Richalet, M. Lartigue, F. Devaux, C. Dubray, and G. Atlan R259

Neurons in rostral VLM are inhibited by chemical stimulation of caudal VLM in rats
S. K. Agarwal, A. J. Gelsema, and F. R. Calaresu R265

Phase resetting of respiratory rhythm: effect of changing respiratory "drive"
F. L. Eldridge, D. Paydarfar, P. G. Wagner, and R. T. Dowell R271

Regulation of glycolytic enzymes during anoxia in the turtle *Pseudemys scripta*
S. P. J. Brooks and K. B. Storey R278

Urethral responses to sacral stimulation in chronic spinal dog
J. S. Walter, J. S. Wheeler, C. J. Robinson, T. Khan, and R. D. Wurster R284

Cold-induced changes in uncoupling protein and GDP binding sites in brown fat of *ob/ob* mice
R. E. Milner and P. Trayhurn R292

Protein metabolism and β-myosin heavy-chain mRNA in unweighted soleus muscle
D. B. Thomason, R. B. Biggs, and F. W. Booth R300

Thermoregulatory control of expired air temperature in diving harp seals
L. P. Folkow and A. Schytte Blix R306

Control of thermoregulatory sweating during exercise in the heat
M. N. Sawka, R. R. Gonzalez, A. J. Young, R. C. Dennis, C. R. Valeri, and K. B. Pandolf R311

Plasma catecholamine and glucose concentrations during hemorrhagic hypotension in anesthetized dogs
R. Briand, N. Yamaguchi, and J. Gagne R317

In vitro evidence for an inhibitor of lipogenesis in serum from overfed obese rats
R. B. S. Harris, R. C. Bruch, and R. J. Martin R326

Renal sympathetic nerve activity and renal responses during head-up tilt in conscious dogs
K. Miki, Y. Hayashida, F. Tajima, J. Iwamoto, and K. Shiraki R337

Acidemia stimulates ACTH, vasopressin, and heart rate responses in fetal sheep
C. E. Wood and H.-G. Chen R344

Glucose metabolism in pregnant sheep when placental growth is restricted
J. A. Owens, J. Falconer, and J. S. Robinson R350

Interstitial and intravascular pressures in conscious dogs during head-out water immersion
K. Miki, M. R. Klocke, S. K. Hong, and J. A. Krasney R358

Effects of converting-enzyme inhibitor on hemodynamic actions of ANP in renal hypertensive rats
M. G. Salom, F. J. Fenoy, A. C. Inglés, L. Martínez, and T. Quesada R365

Catecholamine activity in paraventricular hypothalamus after hemorrhage in cats
K. V. Thrivikraman, D. A. Bereiter, and D. S. Gann R370

Osmoregulation and body fluid compartmentalization in dehydrated heat-exposed pigeons
Z. Arad, M. Horowitz, U. Eylath, and J. Marder R377

Lateral cerebroventricular injection of neuropeptide Y stimulates feeding in sheep
J. L. Miner, M. A. Della-Fera, J. A. Paterson, and C. A. Baile R383

Excitatory and inhibitory effects of gastrin peptides on gastric motility in sheep
L. M. McLeay and M. H. Wong R388

Effects of norepinephrine and denervation on brown adipose tissue in Syrian hamsters
J. M. Hamilton, T. J. Bartness, and G. N. Wade R396

Baroreceptor activation or glutamate coinjection facilitates depressor responses to ANF microinjection into NTS
D. J. McKitrick and F. R. Calaresu R405

Electrophysiological study of micturition reflexes in rats
B. Mallory, W. D. Steers, and W. C. de Groat R410

Natriuretic response to hypervolemia is absent in rats with papillary necrosis
R. Keeler and N. Wilson R422

Control of canine ACTH by corticosteroids: an integral feedback effect of steroids
M. Keller-Wood R427

Alternative mechanism for attenuated pressor responses in AV3V-lesioned dogs
A. F. Tramposch, O. U. Lopes, C. L. Chernicky, and C. M. Ferrario R431

SPECIAL COMMUNICATIONS

Measurement of hepatocellular function, cardiac output, effective blood volume, and oxygen saturation in rats

N. Mrosovsky, L. A. Molony, C. A. Conn, and M. J. Kluger R1315

Level of satiety: in vitro energy metabolism in brain during hypophagic and hyperphagic body weight recovery
T. R. Kasser, R. B. S. Harris, and R. J. Martin R1322

Ambient temperature and food costs: effects on behavior patterns in rats
G. H. Collier, D. F. Johnson, J. Naveira, and K. A. CyBulski R1328

In vitro reactivity of dog cavernous carotid artery to stretch and adrenergic stimulation
J. Valle, A. L. García-Villalón, E. Nava-Hernández, J. L. García, L. Santamaría, B. Gómez, and G. Diéguez R1335

Single-unit responses of serotonergic neurons to glucose and insulin administration in behaving cats
C. A. Fornal, W. J. Litto, D. A. Morilak, and B. L. Jacobs R1345

Relationship between energy expenditure and ion channel density in the turtle and rat brain
R. A. Edwards, P. L. Lutz, and D. G. Baden R1354

Effects of prolonged exercise on puberty and luteinizing hormone secretion in female rats
J. M. Manning and F. H. Bronson R1359

Effect of atriopeptin on blood flow to cerebrum and choroid plexus
K. A. Schalk, J. L. Williams, and D. D. Heistad R1365

Paraventricular nucleus modulation of glycemia and insulinemia in freely moving lean rats
E. Ionescu, C. C. Coimbra, C. D. Walker, and B. Jeanrenaud R1370

Effects of 2-deoxy-D-glucose on sympathetic nerve activity to interscapular brown adipose tissue
M. Egawa, H. Yoshimatsu, and G. A. Bray R1377

Lateral hypothalamic injection of 2-deoxy-D-glucose suppresses sympathetic activity
M. Egawa, H. Yoshimatsu, and G. A. Bray R1386

Effect of vagotomy on brain and plasma atrial natriuretic peptide during hemorrhage
M. I. Phillips, B. Kimura, H. Wang, and W. E. Hoffman R1393

Homologous regulation of human platelet vasopressin receptors does not occur in vivo
D. Vittet, J.-M. Launay, and C. Chevillard R1400

Contribution of hepatic fibronectin synthesis to regulation of plasma fibronectin
P. A. Vincent, T. M. Saba, E. Lewis, and E. Cho R1406

Effects of corticotropin-releasing factor on energy balance in rats are sex dependent
S. Rivest, Y. Deshaies, and D. Richard R1417

Aldosterone and renin inhibition by atrial natriuretic factor in potassium-loaded rats
M. W. Brands and R. H. Freeman R1423

Synthetic capsaicin reversibly impairs vasopressin-mediated blood pressure recovery
S. M. Gardiner, T. Bennett, and T. P. O'Neill R1429

Axons of passage may be responsible for fastigial nucleus pressor response
R. T. Henry and J. D. Connor R1436

Effects of *m*-chlorophenylpiperazine on penile and bladder function in rats
W. D. Steers and W. C. de Groat R1441

Excitatory effect of substance P in parasympathetic ganglia of cat urinary bladder
M. Kawatani, T. Whitney, A. M. Booth, and W. C. de Groat R1450

Role for central angiotensin II in control of blood pressure during pregnancy
T. Hines and J. P. Porter R1457

Endogenous cholecystokinin does not decrease food intake or gastric emptying in fasted rats
G. P. Smith, D. Greenberg, J. D. Falasco, A. A. Avilion, J. Gibbs, R. A. Liddle, and J. A. Williams R1462

Increased urinary clearance of lysine vasopressin in the deoxycorticosterone acetate-hypertensive pig
W. D. Ling, D. P. Brooks, J. T. Crofton, L. Share, and D. F. Bohr R1467

Effect of hepatic portal glucose concentration on food intake and metabolism
M. G. Tordoff, J. P. Tluczek, and M. I. Friedman R1474

Different hemodynamic effects of atrial natriuretic factor and nitroglycerin in rats with congestive heart failure
Y. Chien, N. C. Trippodo, and E. D. Frohlich R1481

Methane production in ruminants: its effect on the doubly labeled water method
A. J. Midwood, P. Haggarty, B. A. McGaw, and J. J. Robinson R1488

Activity of most rostral ventromedial medulla neurons reflect EEG/EMG pattern changes
D. A. Grahn and H. C. Heller R1496

Effects of spinal cord transection on sympathetic discharge in decerebrate-unanesthetized cats
L. C. Weaver and R. D. Stein R1506

Potent cholecystokinin antagonist L 364718 stimulates food intake in rats
R. D. Reidelberger and M. F. O'Rourke R1512

Role of renal nerves in response to volume expansion in conscious newborn lambs
F. G. Smith, T. Sato, O. J. McWeeny, L. Torres, and J. E. Robillard R1519

Bladder contractions and micturition in fetal sheep: their relation to behavioral states
M. E. Wlodek, G. D. Thorburn, and R. Harding R1526

Regional differences in fat pad responses to short days in Siberian hamsters
T. J. Bartness, J. M. Hamilton, G. N. Wade, and B. D. Goldman R1533

Mobilization of calcium, phosphorus, and magnesium by embryonic alligators (*Alligator mississippiensis*)
M. J. Packard and G. C. Packard R1541

Effect of fall mating on ovarian development in the red-sided garter snake
M. T. Mendonça and D. Crews R1548

Structure-function analyses of brain angiotensin control of pressor action in rats
J. W. Wright, L. L. Jensen, K. A. Roberts, M. F. Sardinia, and J. W. Harding R1551

RAPID COMMUNICATIONS

Importance of prostaglandins in hypertension during reduced uteroplacental perfusion pressure
L. L. Woods R1558

Ion leakage is reduced during anoxia in turtle brain: a potential survival strategy
C.-P. Chih, M. Rosenthal, and T. J. Sick R1562
